Information and disclaimer.

This Kosher list is for information purposes only, and is to the best of our knowledge at this time. Every product bearing a Kosher symbol is under the responsibility of that particular Kashrut organization.

Some products may be Cholov Akum or pas akum. It will be marked as such in the list

If a product is Kosher, it does not mean that other products of the same company are Kosher.

If a product is supposed to have a Kosher symbol, it does not mean that the same product without the symbol is Kosher. All products are Kosher year round but not for Pesach.

If you find a Kosher product not mentioned here, please contact us so that we can include it.

Supermarkets

Many of these items are in the Supermarket Netto and some in Fakta.

When they are not in those stores but in others, we have written it.

Some of the products are certified, meaning they have a Hechsher.

They may or may not have a symbol. We have written by them 'certified'. If they require a symbol, we have added 'Kosher symbol'.

Some products are approved as kosher, although they do not have rabbinical supervision. The approval is based on guidelines by the London Bais din and knowledge of how it has been made. It will be marked 'approved'. The guidelines in this publication apply specifically to Denmark.

This list has been compiled under the auspices of Rabbi Yitzi Loewenthal, Rabbi Of ChabaDanmark and Machzikie Hadas Copenhagen.

Many thanks to Yudi Namdar for his work in making this list.
